eGovReach Portal A NASSCOM Initiative

Apr 05, 2011

- eGovernance Solution's Exchange, an initiative of NASSCOM to foster closer interaction and connect between Government and IT Industry, on eGovernance initiatives in India
- Endeavor to foster a dialogue between Government and Industry Partners on various eGovernance initiatives
- The Exchange hosts information on solutions and service offerings, by both members and non-members of NASSCOM. **Special focus to bring small service providers onto the portal.**
- Enable various States and Departments of Government to share Project Information and eGovernance success stories
- Enable industry to track Project opportunities and also explore avenues for partnerships/consortium
- Development Partner a startup player – Connexions
